GAUGE EXPENSE BY THE SIZE OF SALARY

Politics Is a Materialistic and Rather Selfish Game Always.

PEN HAS LARGEST NUMBER OF INMATES

In the History of the Institution and More Are Coming Every Day and Everywhere Convictions Are Piling Up.

Special Columbus Correspondent. Columbus, Nov. 11,-Some funny things are being revealed by the filing of election expense accounts with the various county boards of election. By a strange bit of unanimity all candidates throughout the state seem to gauge their election expenses by the size of the salary of the job they're after. The rule is virtually invariable For example, with only a few exceptions, it is found that candidates for boards of education, which pay no salary, are not willing to spend any money. Of course, that is not unnatural, but the almost fixedness of the followed by song, Rock of Ages; History and Reminiscence of the Woman's Crusade, Mrs. W. T. Hawkins; are willing to spend money to get it in \$5,000 in a few weeks. Most of them now have nothing in return but a hollow and disappointed memory. But no matter how much honor might have been attached to some other job that didn't pay as good a salary, the aspirants wouldn't have thought of spending real coin of the realm in seeking it. All of which shows that the old game of politics is the same materialistic and rather selfish game it always 1,624 Prisoners In Pen.

Here is a little thing Ohloans may boast about or not boast about, according to their individual way of looking at things in general. The fact is that the Ohio penitentiary has today the largest population she ever has had before in her history. There are 1,624 men and women within the walls and 220 outside; that is, distributed among the various state farms and elsewhere as "trusties." And more are coming every day, owing to the fact that this is court season and convictions seem everywhere to be piling up. The other day it was shown that the state prison was the healthlest in its history for the reason that there was not a single prisoner on the sick list. That made the people who read it smile with sat-Isfaction and pride in the thought that a state could reach such a state of med ical perfection. Most people won't smile about the large population that is developing among the prisoners. Still it may mean much or little. It may not necessarily imply that Ohioans are getting any more criminal For the facts may be that a few judges have been more severely inclined during the last few weeks and that before long they will be seized with propor-

tionate leniency. An Argument for Preparedness. The Battle Cry o book, "Defenseless America," has been approved by the state moving picture censors. This is said to be one of the most powerful films ever shown in the state and is an argument for preparedness. It depicts the destruction of the big cities of this country because of
